

FIRMWARE UPDATE RELEASE DETAILS

i450T

DIVE COMPUTER

to version 1C06

(from any previous version)

EXPLANATION

In response to input received from staff and users of the i450T, Aqua Lung has corrected or modified the following items to improve the i450T's operation:

- Corrected issues of time drift in the watch mode function.
- Updated power management.

UPDATE PROCESS

You can update your i450T firmware (operating software) to newly released revision 1C06 by following the How to Update Firmware to a Dive Computer instructions in the DiverLog software. There is no need to return the unit to Aqua Lung.

DiverLog is available on the <http://www.ediverlog.com> web site.

Should you have any questions, please contact your Authorized Aqua Lung Dealer.
